## Algae-Origin<sup>®</sup> solution

### >>VIN'NUTRA IMMUNITY

ALGAE POWER FOR 100% NATURAL FOOD SUPPLEMENTATION

IN REGARDS TO THE NEW FOOD MARKET REQUIREMENTS, INDUSTRIALS ARE LOOKING FOR HIGH DIFFERENTIATION SOLUTIONS TO ANSWER THE LEGITIMATE NATURALNESS DEMANDS OF CONSUMERS, AND ALSO THE VEGAN AND FLEXITARIAN TENDENCIES.

#### VIN'NUTRA IMMUNITY

100% clean label natural supplementation, VIN'NUTRA IMMUNITY is the solution in order to add new potentialities to basic food products. VIN'NUTRA IMMUNITY is a concentrate based on specific green algae extracts consisting mainly of Ulvans polysaccharides and minerals.

Ulvans polysaccharides have demonstrated their immune stimulation properties and the minerals, especially under the form of trace elements, are well-known essentials elements which support the metabolic activities as enzymatic cofactors.

VIN'NUTRA IMMUNITY can be used for different applications in the preparation of different beverages or food specialties like milk products.

#### EXAMPLES OF APPLICATION

##### BEVERAGES To improve healthiness

0.5% W/W Incorporation of VIN'NUTRA IMMUNITY in beer.

At the end of the process, before pasteurization and bottling.

VIN'NUTRA IMMUNITY can be diluted in water before incorporation in the final product

TO BE INCORPORATED AT THE END OF THE PROCESS.

#### OUR TIPS

MIX THOROUGHLY UNTIL COMPLETE DILUTION.

#### PACKAGING

Our ingredient VIN'NUTRA ENERGY is packed into 1L, 5L or 25 L cans.

Our pallets 100 cm x 120 cm have undergone a treatment (ISPM 15).

### >>VIN'NUTRA ENERGY

ALGAE POWER FOR 100% NATURAL FOOD SUPPLEMENTATION

IN REGARDS TO THE NEW FOOD MARKET REQUIREMENTS, INDUSTRIALS ARE LOOKING FOR HIGH DIFFERENTIATION SOLUTIONS TO ANSWER THE LEGITIMATE NATURALNESS DEMANDS OF CONSUMERS, AND ALSO THE VEGAN AND FLEXITARIAN TENDENCIES.

#### VIN'NUTRA ENERGY

100% clean label natural supplementation, VIN'NUTRA ENERGY is the solution in order to add new potentialities to basic food products. VIN'NUTRA ENERGY is an algae concentrate based of a mix of Ulva green algae (for minerals and sugars) and Spirulina microalgae extracts (mainly for proteins).

Algae are well-known for their high protein content and furthermore for the well-balanced content of essential amino acids contained in these proteins. A sufficient and balanced intake of essential amino acids as protein building elements and minerals, especially under the form of trace elements as enzymatic cofactors, are essential to optimally support the metabolic activities.

VIN'NUTRA ENERGY can be used for different applications in the preparation of different beverages or food specialties like milk products.

#### EXAMPLES OF APPLICATION

##### BEVERAGES To improve healthiness

From 0.2% to 0.7% W/W Incorporation of VIN'NUTRA ENERGY in beer.  
At the end of the process, before pasteurization and bottling.

TO BE INCORPORATED AT THE END OF THE PROCESS.

#### OUR TIPS

MIX THOROUGHLY UNTIL COMPLETE DILUTION.
